

Employment Opportunity

Civil Engineer I

Thiele Kaolin Company, a major producer of coating and filler clays, is currently recruiting for a Civil Engineer I. This position is located in Sandersville, Georgia.

SUMMARY OF POSITION:

Manage and coordinate engineering design, cost analysis, procurement, scheduling, bidding, construction, and start-up of civil related capital infrastructure in a team environment with a focus on meeting end user expectations and functionality.

SKILL REQUIREMENTS AND QUALIFICATIONS:

- Bachelor's Degree in Civil Engineering.
- Five years' experience in charge of design and construction management.
- Engineer-in-Training Required, Professional Engineering License Preferred.
- Ability to work independently and handle different and multiple tasks efficiently.
- Heavy focus on safety in design and construction. Self-motivated, energetic and able to execute.

PRIMARY RESPONSIBILITIES

- Proficient in hydraulic pipeline systems and gravity-fed pipe or channel flow design. Firm understanding of hydrology and watershed management.
- Efficient and experienced in civil related construction cost estimating, project scheduling, project cost analysis, feasibility studies, quantity takeoffs, operational cost analysis, material procurement, and developing pre-construction bid documents.
- Execute construction through managing field personnel and contractors performing various trades – earthwork, pipe trenching, pipe fitting and welding, etc.
- Knowledge of soil mechanics and basic geotechnical design and analysis of foundations, slope stability, and earthen dam design. Understand field and laboratory soil testing methods sufficiently to support design and construction.
- Firm understanding of phased E&SC plans and BMP implementation. Knowledge of local, state, and federal regulations regarding environmental permitting requirements related to typical civil projects.
- Proficient in developing basic grading and drainage site plans. Understand earthwork volume calculation methods.
- Proficient in AutoCAD or Microstation other industry specific software such as Hydroflo, HEC-HMS and Carlson Civil/Survey.
- Basic knowledge of surveying and mapping concepts, including construction layout, topography survey methods, conventional and GPS survey equipment. Provide technical assistance through the use of survey methods, photogrammetry and CAD software to support, analyze and design projects.
- Create engineering design drawings in support of capital projects.
- Work with other engineers and programmers in a team environment to manage projects from concept to implementation.
- Ability to manage multiple projects at the same time.
- Basic structural analysis skills using Staad or GTStrudl is a plus.
- Ability to perform field survey work in support of a project is a plus.

Thiele offers excellent pay and a comprehensive fringe benefits package. This package includes medical and life insurance, dental, vision, sick pay, LTD, paid vacation and holidays, 401K, and educational assistance.

Qualified candidates should email a resume to latonya.martin@thielekaolin.com. **Please note "Civil Engineer I" in the subject line.**

Any job offer will be contingent upon the successful candidate passing a physical exam, including a drug screen and a background check as warranted.
